Lactobacillus reuteri DSM 17938	100 million CFU	-

RENI, Recommended Energy and Nutrient Intake, 2002 edition
- ,No RENI value
Reference Age: Children 4 to 6 years old

INGREDIENTS: *Lactobacillus reuteri* DSM 17938, Bulking agent: Isomalt DC 200, Isomalt DC 100, Sweetener: Xylitol, Encapsulator: Palm Oil, Flavorant: Strawberry Flavouring, Taste enhancer: Citric acid, anhydrous

WHAT IS THIS PRODUCT USED FOR?
- Enhances intestinal ecology
- Improves digestion
- Helps enhance natural resistance to intestinal infections

DIRECTIONS FOR USE
Recommended dose for children 4 years old and up:

Orally, 1 to 2 chewable tablets per day, or as directed by a doctor. Use regularly for good digestive health or when temporary stomach discomfort occurs.

When should you not take this product?
If you are allergic to any ingredient in the product
If you have badly damaged intestines (e.g., perforated or obstructed intestines)

When should you consult your doctor?
Ask a doctor before use:
If you have a short bowel syndrome
If you have a weakened immune system (e.g., patients with HIV/AIDS or lymphoma, patients on long-term corticosteroid treatment, patients undergoing cancer treatment, patients taking medications that weaken the immune system)

What other medicines or food should be avoided while taking his product?
- Antibiotic medicines may reduce the effect of probiotics in the body. Take probiotics at least 2 hours before or after antibiotics
- Medicines that weaken the immune system (e.g., azathioprine, basiliximab, ciclosporin, daclizumab, muromonab-CD3, mycophenolate, tacrolimus, sirolimus, and corticosteroids such as prednisone) may increase the chances of getting sick from bacteria and yeast.

Tell your doctor about all the medicines the child is taking including supplements and herbal medicines.
