Glucopro ®

SPECIAL DIETARY POWDER DRINK MIX

Food for Special Dietary Use

INGREDIENT

Each sachet contains:

Resistant Maltodextrin……..... 6 g

OTHER INGREDIENTS

(Apple Tea Flavor, Green Tea Flavor, Wintermelon Tea Flavor)

Resistant Maltodextrin, Nature Identical Flavors, Tea Extract, Malic Acid, Sucralose, Sodium Chloride, Tribasic Calcium Phosphate

PRODUCT DESCRIPTION

Resistant Maltodextrin is a white to off-white, odorless, free-flowing powder that is available in four variants: unflavored, apple tea, green tea, and wintermelon tea.

WHAT IS IN THE PRODUCT?

Resistant Maltodextrin is a non-viscous water soluble dietary fiber. It is produced from cornstarch by a proprietary process to purposely convert it into a form that is resistant to digestion and absorption in the upper gastrointestinal tract. The content of each sachet provides a high source of fiber.

WHAT IS THE PRODUCT USED FOR?

As an adjunct to diet and exercise, fiber from Resistant Maltodextrin can help reduce the glycemic response to carbohydrate foods.

Resistant Maltodextrin also helps maintain healthy intestinal regularity.

DIRECTIONS FOR PREPARATION AND USE

Dissolve 1 sachet in a glass of water or beverage. Not recommended for carbonated beverages.

Take with each meal.

WHEN SHOULD YOU NOT TAKE THIS PRODUCT?

If you are allergic to any component of the product.

UNDESIRABLE EFFECTS

None expected with the amount present in the product.

Resistant Maltodextrin is recognized as GRAS (Generally Recognized as Safe), with no specified limitation for its daily intake. It is well tolerated in the digestive system and has a very high laxation threshold above 70 grams per day. No adverse gastrointestinal symptoms are expected at levels up to 60 g/day in diabetic adults and 30 g/day in healthy adults (healthy adults were not subjected to a regimen of 60 g/day in any of the toleration studies). It is non-allergenic.

WHAT OTHER FOOD OR DRINK MUST BE AVOIDED WHILE TAKING THIS PRODUCT?

None known.

HOW SHOULD YOU KEEP THE PRODUCT?

Keep the product out of reach and sight of children

Store at temperatures not exceeding 30ºC

SIGNS AND SYMPTOMS OF TAKING IN HIGH LEVELS
The possibility of severe gastrointestinal disturbance and laxation exists at high levels, as with any fiber source. For Resistant Maltodextrin, this is at levels substantially above those which are typically consumed.

WHAT TO DO WHEN YOU HAVE USED MORE THAN THE RECOMMENDED AMOUNT
If you have taken much more than the recommended amount, consult a doctor.

CARE THAT SHOULD BE TAKEN WHEN TAKING THIS PRODUCT
USE UNDER MEDICAL SUPERVISION
ONCE OPENED, CONSUME CONTENTS IMMEDIATELY.
Do not use more than the recommended amount unless prescribed by a doctor.
Do not use after the expiry date on the label.

WHEN SHOULD YOU CONSULT YOUR DOCTOR?
If any undesirable effect occurs

IMPORTANT NOTICE
1. Not to be used as a sole source of nutrition
2. Not for parenteral use
3. If pregnant or nursing, consult your physician or healthcare practitioner before taking this product.
