Salicylic Acid+Benzoic Acid

United Home® Whitfield's

60 mg / 120 mg per gram Ointment

TOPICAL ANTIFUNGAL • KERATOLYTIC

FORMULATION
Each gram ointment contains:
Salicylic Acid ..... 60 mg
Benzoic Acid ..... 120 mg

INDICATIONS
For the treatment of athlete's foot (*alipunga*), ringworm (*buni*) and tinea versicolor (*an-an*).

DOSAGE AND ADMINISTRATION
Wash hands before and after each application.
Directions for Use: clean the affected and surrounding areas of the skin with mild soap; rinse thoroughly with water and pat dry; apply a thin layer of the ointment and rub gently onto affected area of the skin twice a day for at least 4 weeks, or, as directed by a doctor.
For patients with athlete's foot between the toes: apply the medicine to affected skin between and around the toes; avoid wearing tight footwear; wear clean socks and change them everyday.
A warm or burning sensation lasting 3 to 5 minutes may be felt after applying this medicine.

CONTRAINDICATIONS
- Allergy to Salicylic Acid, Benzoic Acid or to any ingredient in the product
- Children younger than 2 years old
- Pregnant or breastfeeding women
- Diabetics and patients with impaired or poor circulation

WARNINGS
- **For external use on the skin only.**
- Avoid contact with the eyes, nose, mouth and other mucous membranes.
- Do not use for prolonged periods, in high concentrations, over large areas of the body, or on broken or inflamed skin.
- Do not use after the expiry date on the label.

Stop use and consult a doctor if undesirable effects are experienced or if the burning sensation lasts for longer than 10 days.

For suspected adverse drug reaction, seek medical attention immediately and report to the FDA at www.fda.gov.ph AND Unilab at (+632) 858-1000 or productsafety@unilab.com.ph. By reporting undesirable effects, you can help provide more information on the safety of this medicine.

Effective for athlete's foot (*alipunga*)
